

DSO Fluid Handling Co. Inc.

For over 15 years, DSO Fluid Handling Co., Inc. has provided the food processing, dairy and pharmaceutical industries with a first class alternative for sanitary maintenance parts and products. An extensive inventory combined with a strong distributor network enables DSO to offer quick shipment on their entire product offering. DSO product lines includes replacement parts for equipment manufactured by Alfa Laval (Tri-Clover® G&H), APV/SPX®, Evergreen®, Fristam®, Waukesha®, AMPCO®, Wright® and many others. In addition to the Pump, Valve, Homogenizer & Filler parts, DSO has added a complete line of sanitary gaskets to our product offering.

DSO Exemplary Service- Setting New Standards for Excellence —

How do you become the preeminent leader for maintenance parts and products? By exceeding customers' expectations each and every day. Since its inception, DSO has evolved into the industry leader due to our uncompromising problem/solution philosophy that provides our customers with unparalleled levels of support.

DSO Fast Turnaround- What You Want. When You Want it —

Our distributors and their customers have grown accustomed to a quick order turnaround from DSO. Whether it's an order of a single, or a thousand items, we know only one speed.... FAST!. How do we maintain our commitment to speed, excellence and 100% customer satisfaction? By maintaining an extraordinary high inventory level and ensuring that the products are always ready to ship. Additionally, our in-house manufacturing capability gives us an added flexibility in delivery of the product our customers need quickly.

DSO Distributor Network- Our Extraordinary Commitment —

The DSO distributor network reaches around the world. We provide our distributors with the loyalty and support which they have come to rely upon when buying DSO products. In turn, they provide us with the size, scope and resources we need to reach & service end-users internationally. Our focus is clear: Provide our distributors with DSO Products where they need them, when they need them.

Product Flexibility —

Being a leader in "custom designed" means going the extra mile for our customers. If our customers need a maintenance part or product that is currently not offered by DSO, than we will consider custom designing and manufacturing this part for them. DSO provides free evaluation and parts identification services to our customers. This service is parts of the reason why DSO is recognized as a worldwide leader for Aftermarket Maintenance Parts and Products.

Enhancement of OEM parts —

DSO redesigned the OEM 5 lobe rotors so that all of our new rotors are manufactured with a stainless steel core. The lobes under the rubber surface are either made of stainless steel or aluminum. By using stainless steel or aluminum under the rubber we eliminate the chance of the rotor cracking from the core.

Certification and Criteria —

DSO genuine parts and products meet the stringent requirements of the FDA. DSO elastomers conform to the U.S. Code of Regulations 21, Part 177.2600 ("Rubber Articles Intended for Repeated Use") and DSO parts are manufactured to meet 3A standards. In addition, DSO's line of sanitary pipeline gaskets are certified to meet the criteria of the FDA, 3-A Sanitary Standards, and USP class VI for pharmaceuticals.

DSO offers aftermarket replacement parts for:

	Alfa Laval® / G&H - Valves	GASKETS & O-RINGS	
	Alfa Laval® - Rotary Pumps	Hoyer® - Freezers	
	Alfa Laval® - Centrifugal Pumps	SUDMO® - Valves	
	AMPCO® - Rotary Pumps	Sine® - Pumps	
	AMPCO® - Centrifugal Pumps	SPI® - Valves	
	APV® - Rotary Pumps	Tri-Clover® - Valves	
	APV® - Centrifugal Pumps	Tri-Clover® - Rotary Pumps	
	APV® - Gaulin Homogenizers	Tri-Clover® - Centrifugal Pumps	
	APV® - Freezers	Waukesha® - Valves	
	Cherry-Burrell® - Valves	Waukesha® - Rotary Pumps	
	Evergreen® - Fillers	Waukesha® - Centrifugal Pumps	
	Fristam® - Rotary Pumps	Wright® - Rotary Pumps	
	Fristam® - Centrifugal Pumps	Wright® - Centrifugal Pumps	

DSO Stainless & Elastomer parts for the equipment listed above, include but are not limited to:

- Back Plates
- Balls (Check, Nylon & Valve)
- Butterfly Seats
- Impellers & Impeller Carbons
- Lip Seals
- Mechanical Seals (Carbon & Silicone Carbide)
- Nylon Followers
- Oil Seals
- O-Rings
- Packings
- Gaskets (Clamp, Pipeline, Casing, Paper, etc.)
- Pump Shafts
- Plungers & Plunger Packings
- Rubber & Teflon Diaphragm

- Rubber Coated Stainless Inserts
- Rotors (Rubber & Non-Galling Alloy)
- Seal Bearings
- Seal Kits
- Seal Rings
- Springs
- Stub Shafts
- Suction Cups
- TFM Valve Seats
- U-Cups
- Valve Bodies
- Valve Stems (Rubber, Teflon & Steel)
- Wave Springs
- Wear Rings
