

Replacement Parts for Centrifugal Pumps

Since 1993, DSO Fluid Handling Co., Inc. has supplied the sanitary process industries with a first class alternative to OEM maintenance parts and products. Today the company offers one of the most extensive and diversified lines of aftermarket sanitary stainless steel and rubber parts worldwide. DSO supplies pump replacement parts for equipment manufactured by Alfa Laval®, Ampco®, APV®, Fristam®, Tri-Clover®, Waukesha®, Wright® and others.

IMPELLERS

ALL DSO centrifugal pump Impellers are manufactured in 316L stainless steel. To service the needs of our customers better, DSO also offers impeller sizes in 1/8" increments, which will ensure a perfect fit to the pump in which it will be installed.

BACK-PLATES

New Back-Plates for centrifugal pumps are available from DSO. To save our customers money DSO offers an exchange program for centrifugal pump Back-Plates.

PUMP SHAFTS

DSO Pump Shafts are precision machined from 316L stainless steel and are available for a wide range of centrifugal pumps.

SEALS

DSO offers high quality replacement Carbon or Silicone Carbide Seals for centrifugal pumps with superior surface finish and the highest grade lapped & polished seal surfaces.

CENTRIFUGAL PUMP KITS

To ensure that all the required wearable parts such as Seals and O-Rings etc are replaced during PM's, DSO offers Pump kits that contain all the parts required to enable proper sealing and reassembly of the pumps. All kits are available with the same component combinations as offered by the OEM.

OTHER PUMP PARTS

To complete our line of centrifugal pump replacement parts, DSO stocks O-Rings, casing gaskets and Springs. These products enable our customers to use DSO as a one-stop-shop for all of their centrifugal pump part needs.

CERTIFICATION & CRITERIA

DSO genuine parts and products meet the stringent requirements of the FDA. DSO elastomers conform to the U.S. Code of Regulations 21, Part 177.2600 ("Rubber Articles Intended for Repeated Use") and DSO parts are manufactured to meet 3A standards. In addition, DSO's line of sanitary pipeline gaskets are certified to meet the criteria of the FDA, 3-A Sanitary Standards, and USP class VI for pharmaceuticals.
