

## Replacement Parts for Valves

Since 1993, DSO Fluid Handling Co., Inc. has supplied the sanitary process industries with a first class alternative to OEM maintenance parts and products. Today the company offers one of the most extensive and diversified lines of aftermarket sanitary stainless steel and rubber parts worldwide. DSO supplies replacement parts for sanitary valves manufactured by Alfa Laval<sup>®</sup>, APV<sup>®</sup>, G&H<sup>®</sup>, SUDMO<sup>®</sup>, Tri-Clover<sup>®</sup>, Waukesha<sup>®</sup>, SPI<sup>®</sup> and others.

### STEMS

New elastomer Valve Stems are machined in 316L stainless steel and are molded in Buna, EPDM or Fluoroelastomer (SFY) materials. "TR" (Teflon<sup>®</sup>) Stems and Stainless Throttling Stems are stocked and available for quick shipment.

DSO offers a Stem exchange program which saves our customers significant amounts of money. Additional savings can be achieved by purchasing DSO stems reconditioned

### STEM SEATS

DSO Stem Seats are manufactured with TFM 1600 PTFE. In addition blue PTFE Seats are available, which will enhance your HACCP monitoring capabilities because of its high visibility. For demanding applications, DSO can manufacture Stem Seats made of PEEK material. PEEK's ability to withstand extreme pressures and continuous temperatures of up to 500°F (260°C) make it an excellent option for demanding applications..

### BALLS

DSO offer Balls for Ball Check Valves. New Balls are available in Buna, EPDM, Fluoroelastomers (SFY) and Nylon materials. All of DSO's rubber coated Check Balls are manufactured using a stainless steel insert. The stainless steel core ensures ball rigidity and strength.

### VALVE BODY GASKETS

Valve body gaskets from DSO are available in all rubber and rubber bonded to stainless steel. Both styles are available in Buna, EPDM and Fluoroelastomer (SFY) materials.

### VALVE KITS

are replaced during PM's, DSO offers Valve kits that contain all the parts required to enable proper sealing and reassembly of the valves. All Kits are available with the same component combinations as offered by the OEM.

### OTHER VALVE PARTS

To complete our line of valve replacement parts, DSO stocks O-Ring, Seals, Springs and other parts for quick shipment spares. These added products enable our customers to use DSO as a one-stop-shop for all of their valve part needs.

### CERTIFICATION & CRITERIA

DSO genuine parts and products meet the stringent requirements of the FDA. DSO elastomers conform to the U.S. Code of Regulations 21, Part 177.2600 ("Rubber Articles Intended for Repeated Use") and DSO parts are manufactured to meet 3A standards. In addition, DSO's line of sanitary pipeline gaskets are certified to meet the criteria of the FDA, 3-A Sanitary Standards, and USP class VI for pharmaceuticals.
